

**SPECTRUM**

The Creative Approach to Bioscience

# ALL IN A BOTTLE

## Ready-To-Use Single Liquid Reagents

### Substrates

Albumin  
T.bilirubin  
Cholesterol  
Creatinine Jaffe'  
Glucose(god-pap)  
Haemoglobin  
Micro-Protein  
Total Protein  
Triglycerides  
Urea/bun  
Uric acid

### Enzymes

Alk.Phosph.  
Amylase  
GOT/AST  
GPT/ALT

### Electrolytes

Ammonia  
Calcium Arsenazo |||  
Chloride  
Copper  
Magnesium  
Phosphorus  
Potassium  
Sodium  
Iron  
Zinc

# STATE OF-THE-ART TECHNOLOGY

New stabilization process using the  
**Microstab Technology**  
which gives the single reagents the maximum  
affordable stability

## Single Liquid Reagents

- Improved Linearity
- Minimize preparation error
- Waste Reduction
- Improved Precision
- Easily adaptable to autoanalyzers
- Increase Auto-analyzer on Board Capacity
- 12 to 24 months Stability

 Egyptian Company For Biotechnology (S.A.E.)  
Obour city industrial area. block 20008 piece 19 A. Cairo. Egypt.
